## About the Author and Play

One of Broadway's most hilarious shows, *Guys and Dolls* has been described as the perfect musical comedy. Based primarily on the Damon Runyon short story *The Idyll of Miss Sarah Brown*, it is peopled with the rich and often comic, criminal characters whom Damon Runyon loved to create. Although born in Manhattan, Kansas, his family later moved to Colorado. Runyon began his writing career there as a newspaper reporter for a small paper, Pueblo's Evening Press, in Pueblo, Colorado. As a young man he served in the army and fought in the Spanish-American War. After leaving the army in 1899, Runyon rode the rails. He later said that his experiences with the hobos who secretly rode the empty freight cars marked the beginning of his association with criminal lore and slang. After working for various newspapers around the country, Runyon eventually landed a job in the sports department of William Randolph Hearst's *New York American*. His sports writing quickly gained him recognition as a writer with an unusual personal style. This success allowed him the opportunity to write whatever he wanted in his column, which featured human interest stories of the sports, theatrical, and underworld characters of Broadway.

Runyon began writing short stories again in the 1920's, many of them featuring his Broadway characters with their distinctive dialects. Many of his stories were published in collections, the best known of which is *Guys and Dolls*. A remarkable number of these stories have been transferred to the stage and screen, the most famous being the musical *Guys and Dolls* and the Shirley temple movie *Little Miss Marker* based on the story of the same name. The appeal of his characters has made the works and characters of Damon Runyon timeless and some of the most beloved ever created in American literature, and immortalized in American theatre and film.
